NESTE

# Neste's leading role in decarbonizing society

## Have no fear, embrace change

We are willing to cannibalize our fossil fuel business to decarbonize the world

## Unwaste the world

We are driving circular economy by turning waste and residues into renewable fuels and materials

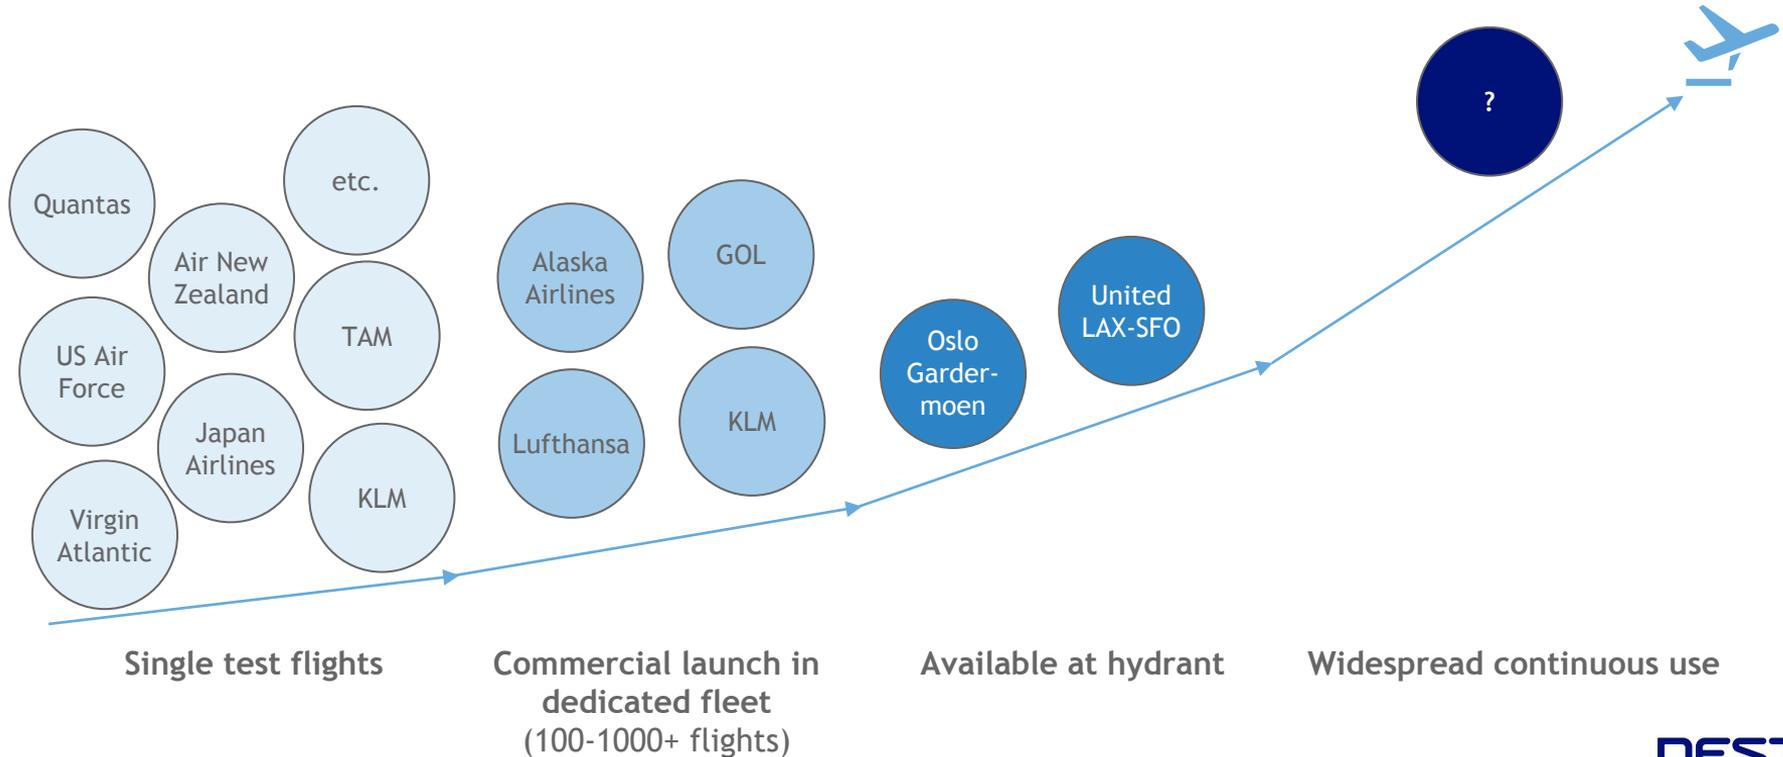

## Create responsible choices

We offer sustainable solutions that make sense to people and society

60% are concerned  
about the impact  
of flying.

# Despite numerous test programs and commercial launch, widespread continuous use of RJF has not been achieved

# Strong pull created by progressive consumers and companies

Switched from conventional diesel to renewable

Switched from conventional diesel to renewable

Switched from conventional diesel to Neste MY Renewable Diesel

Strategy to substantially reduce their carbon emissions

Carbon neutral - Switched from regular diesel to Neste MY Renewable Diesel

Introducing 1% airport-wide supply of Neste MY Renewable Jet Fuel

Switched from conventional diesel to renewable

Switched from conventional diesel to Neste MY Renewable Diesel

100% of plastics in home furnishes renewable or recycled by 2020

# Neste strives for decarbonisation of aviation beyond fuel

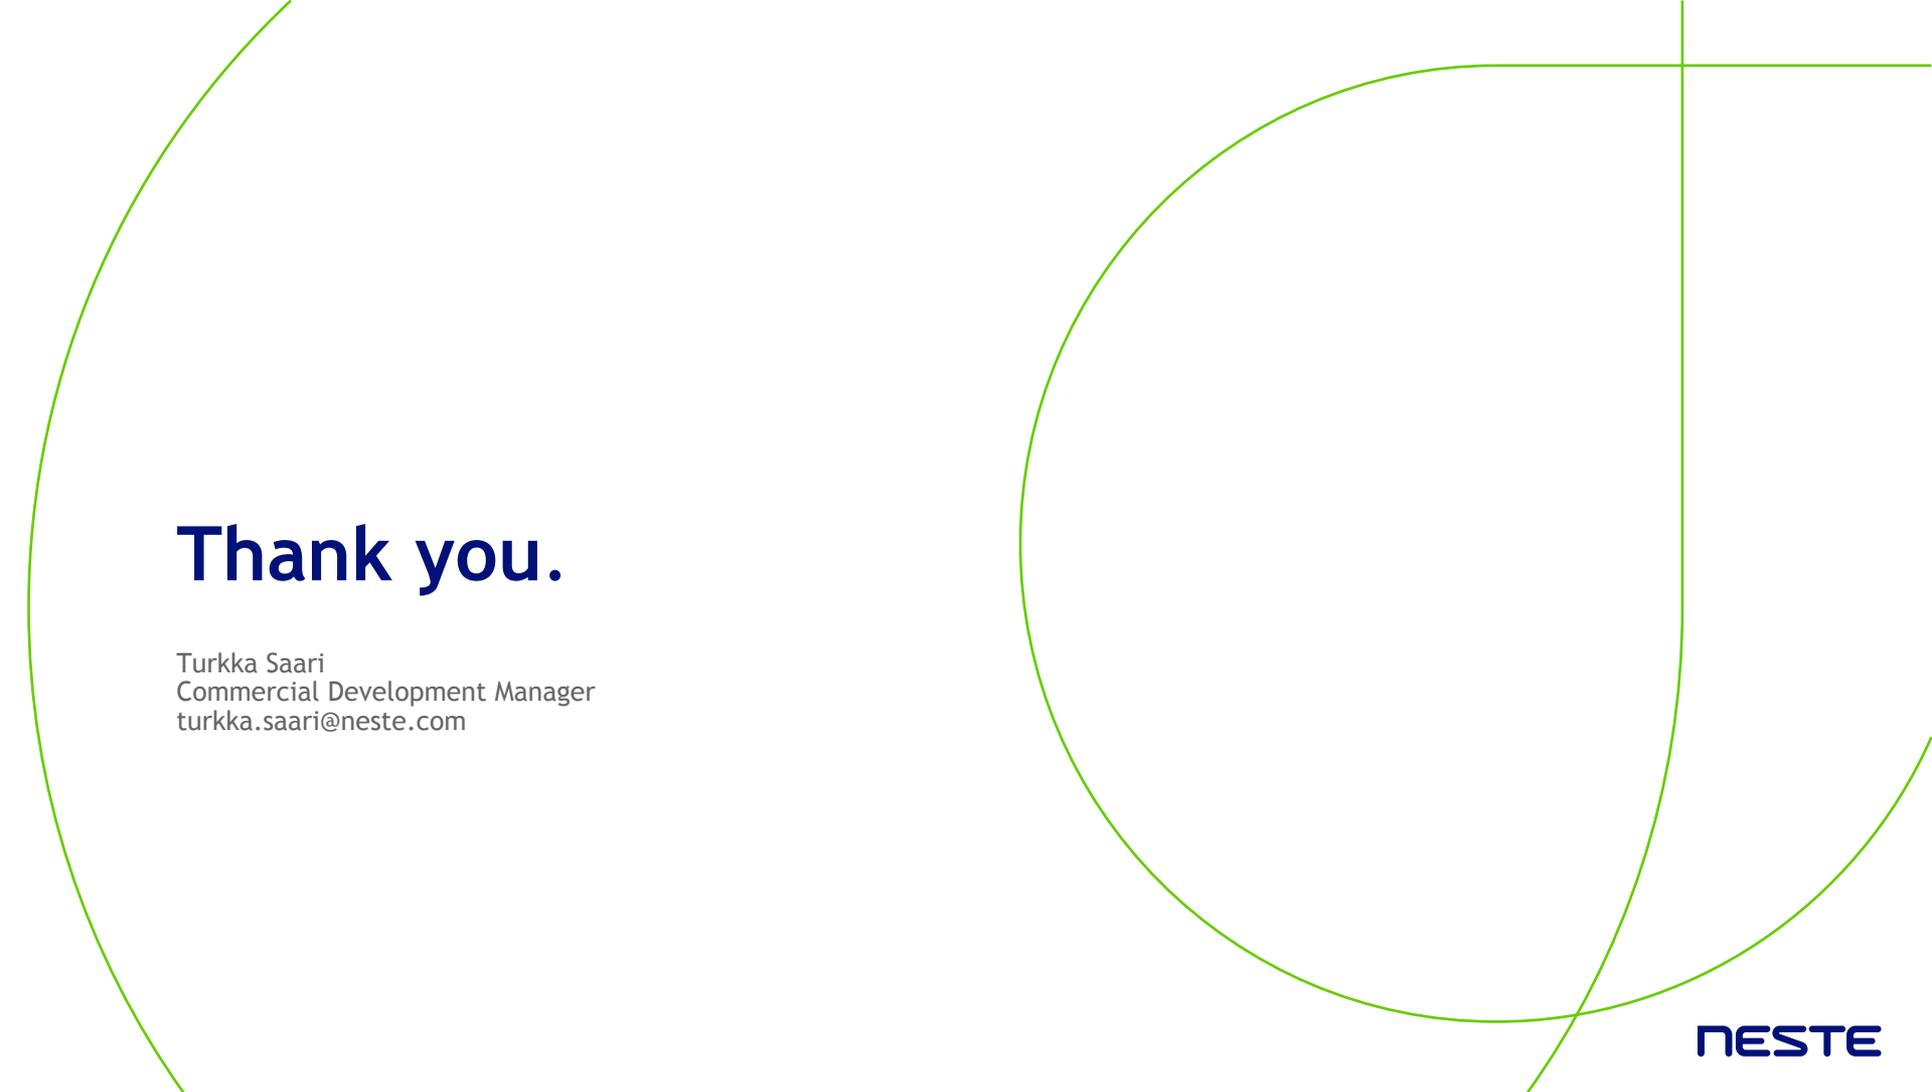

Renewable  
Jet Fuel

Renewable  
Plastics

Renewable  
Solvents

Renewable  
Diesel

Sustainable  
services

# Thank you.
