

Cyber Security and Digitalization

Anders Granum, Deputy Senior Vice President R&D Statnett

Nordic Energy Research Forum 2021

Webinar September 14th

This is Statnett

- Statnett is the **Transmission System Operator** in the Norwegian energy system
- Statnett operates and owns about 11 000 km of lines, 1400 km cables and approximately 166 transformer stations throughout Norway
- Operations are **monitored continuously** by one national control centre and two regional control centres
- Statnett is also responsible for interconnectors to Sweden, Denmark, the Netherlands and Germany

The green change of pace is happening now!

The zero-emission society is causing radical changes to the power system in Europe and Norway

Closer integration between countries and sectors

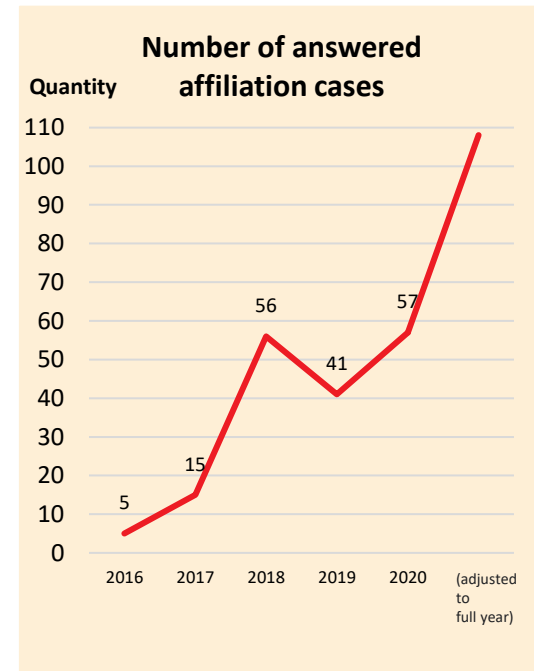

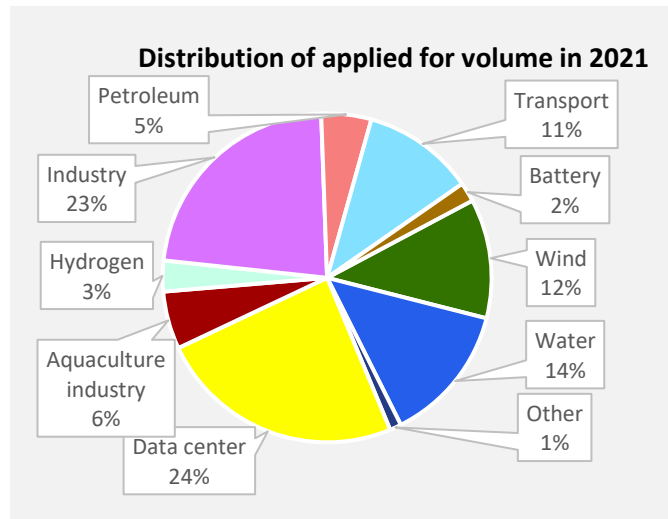

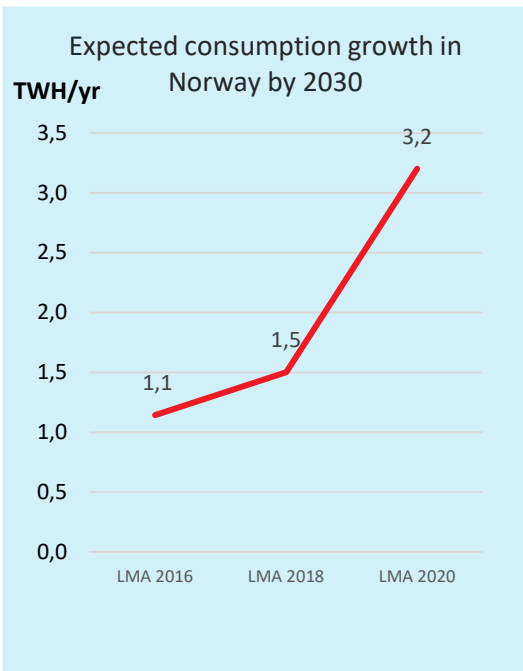

New technology and digital solutions make the transition possible

Norway seizes the opportunity for access to **more green power**

Bærekraftig hjulet og green deal

Climate targets in Europe, the Nordic countries and Norway presents us with new challenges

Flexibility

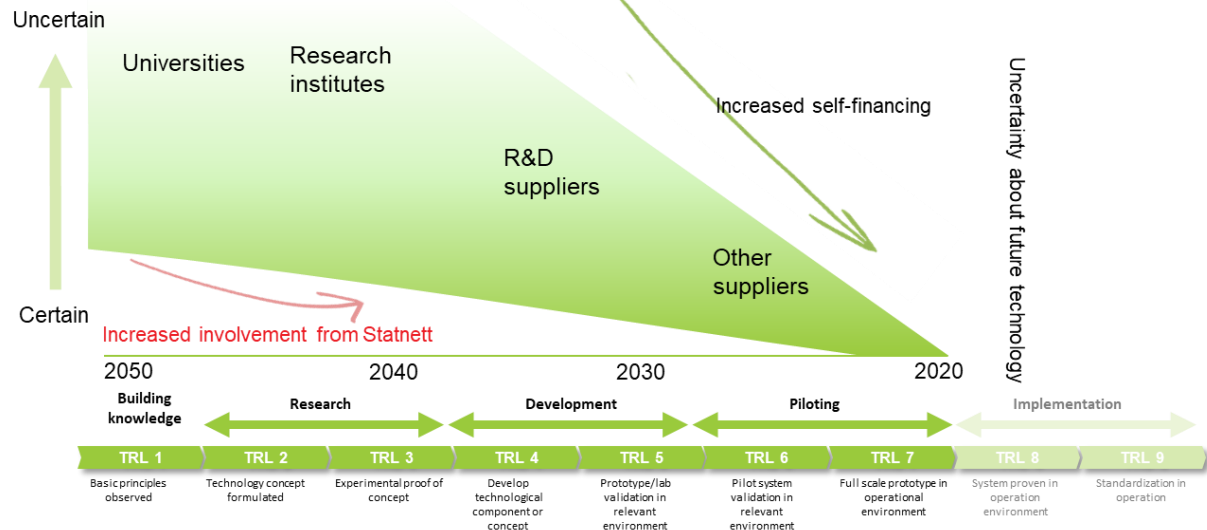

Capacity

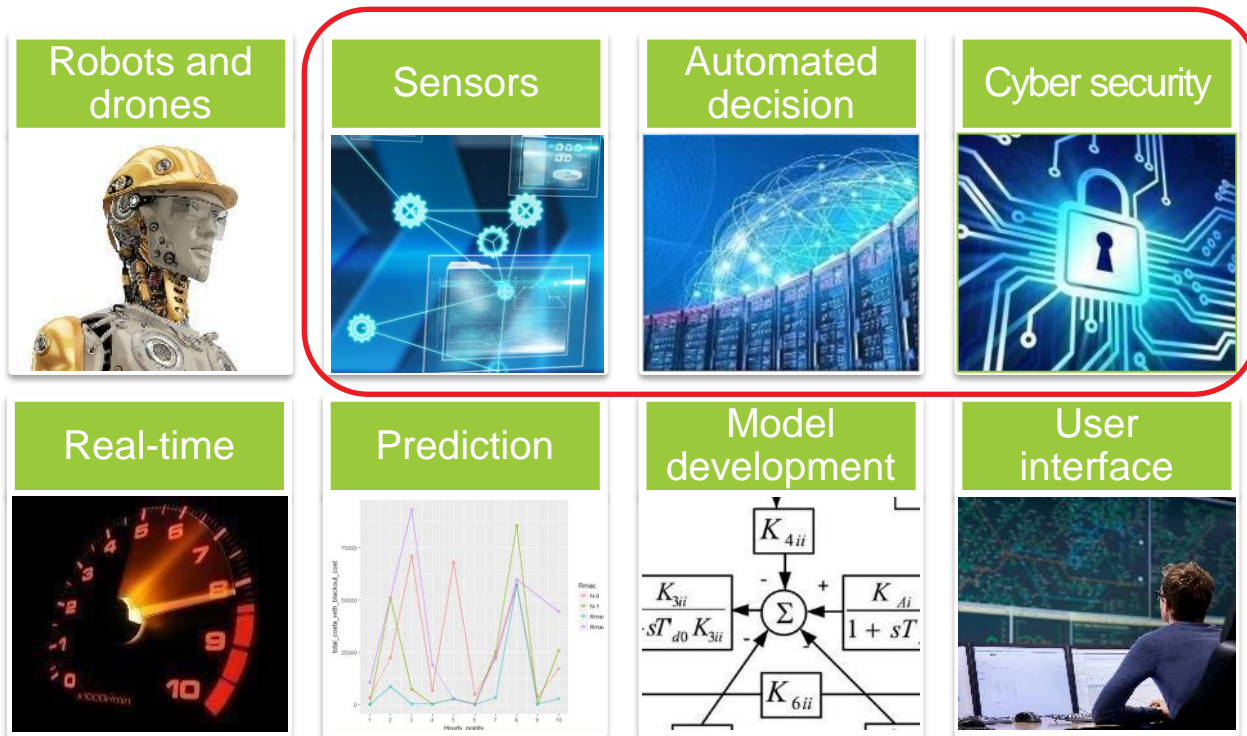

Inertia

Frequency quality

Our areas of digitalization

Recommendation:

The future is electric and digital!
