

An aerial photograph of a lush green forest landscape. A winding road or path cuts through the trees, leading to a small, clear lake. Several high-voltage power lines stretch across the scene from the top left towards the bottom right. The sky is bright, suggesting a sunny day. A solid blue horizontal bar is positioned at the top of the image, partially overlapping the text.

Energy system integration - Big data and information exchange

Robert Eriksson

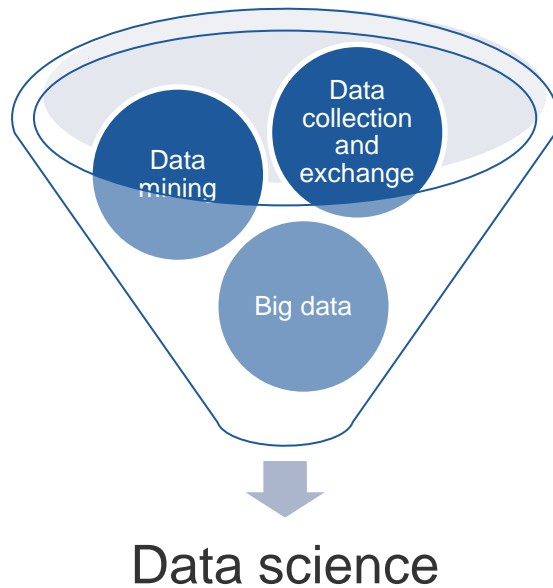

Svenska kraftnät (Swedish National Grid)
