Unrestricted

Aims of the Nordic Energy Outlooks programme

(extract from call text, Nordic Energy Research)

Nordic context

Strengthen competence and cooperation in the field of energy systems analysis

Synthesize the results of current research

Explore how different methods lead to different results.

Find out where there is a need for more joint research

Provide inputs to the updates of NECPs

SINTEF

About the program plan

□ The plan is general

- Applicable for all WPs, 1-4
- Shows the overall timeline for program
- Detailed WP plans/timelines will be developed

□ Identifies common WP-deliverables

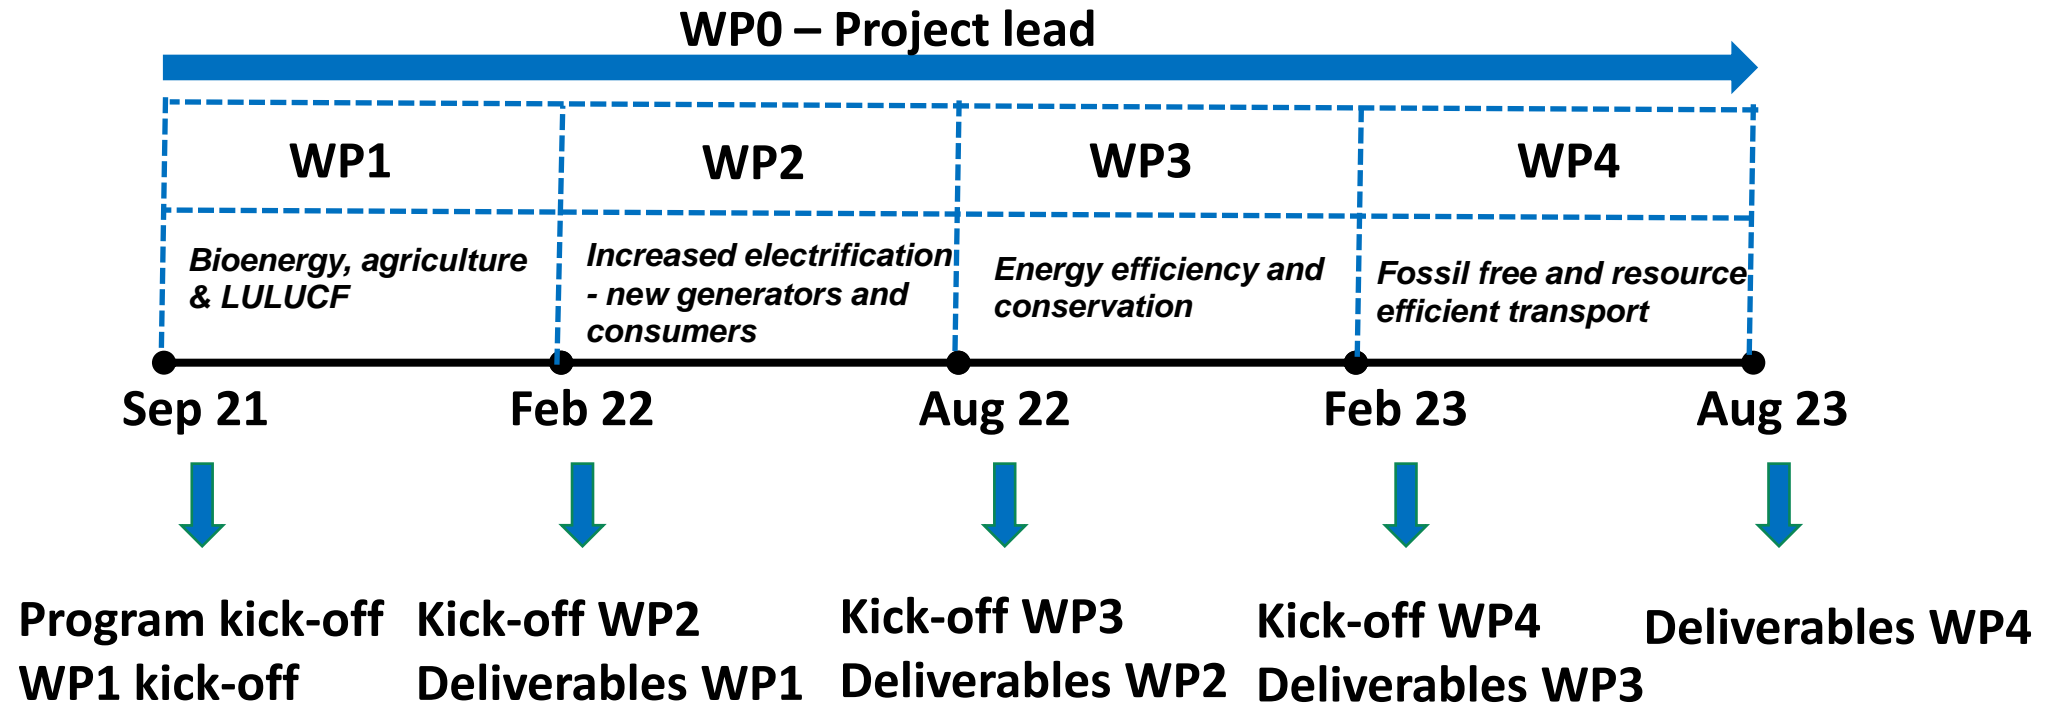

- A final report (+ draft content)
- A final seminar

□ Activities ---> report

SINTEF

Overall timeline for NEO program

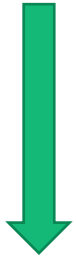

SINTEF

Final report: First draft of content (tbd)

1. Describe

2. Explain differences, and evaluate

3. Propose improvements / future research

Models / methods, data, results (existing and new)

4. Inputs to NECP

Activity 1: Provide background information

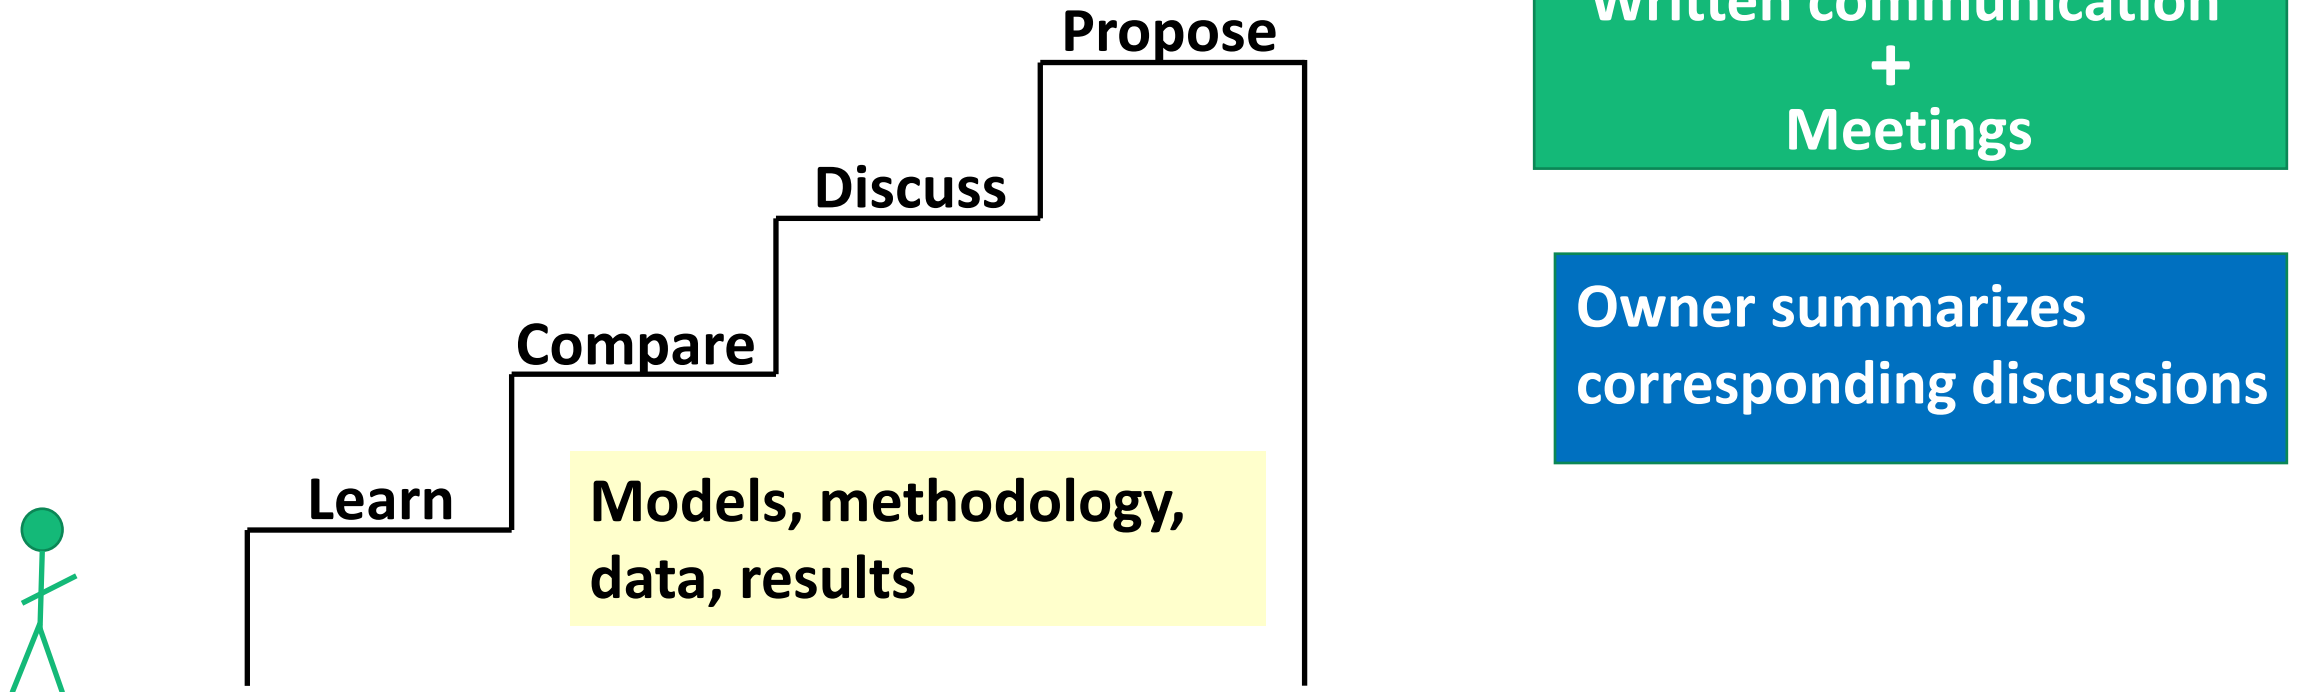

Make available information (models, data, results, ...)

- Scientific papers or reports
- Presentations in meetings
- Optional: Program code, and excel sheets for data?

Site has been prepared for sharing of documents

[NEO Open folder](#)

Activity 2: Evaluations and discussions

Activity 3: Improvements and new results

- Respective proposals/applications

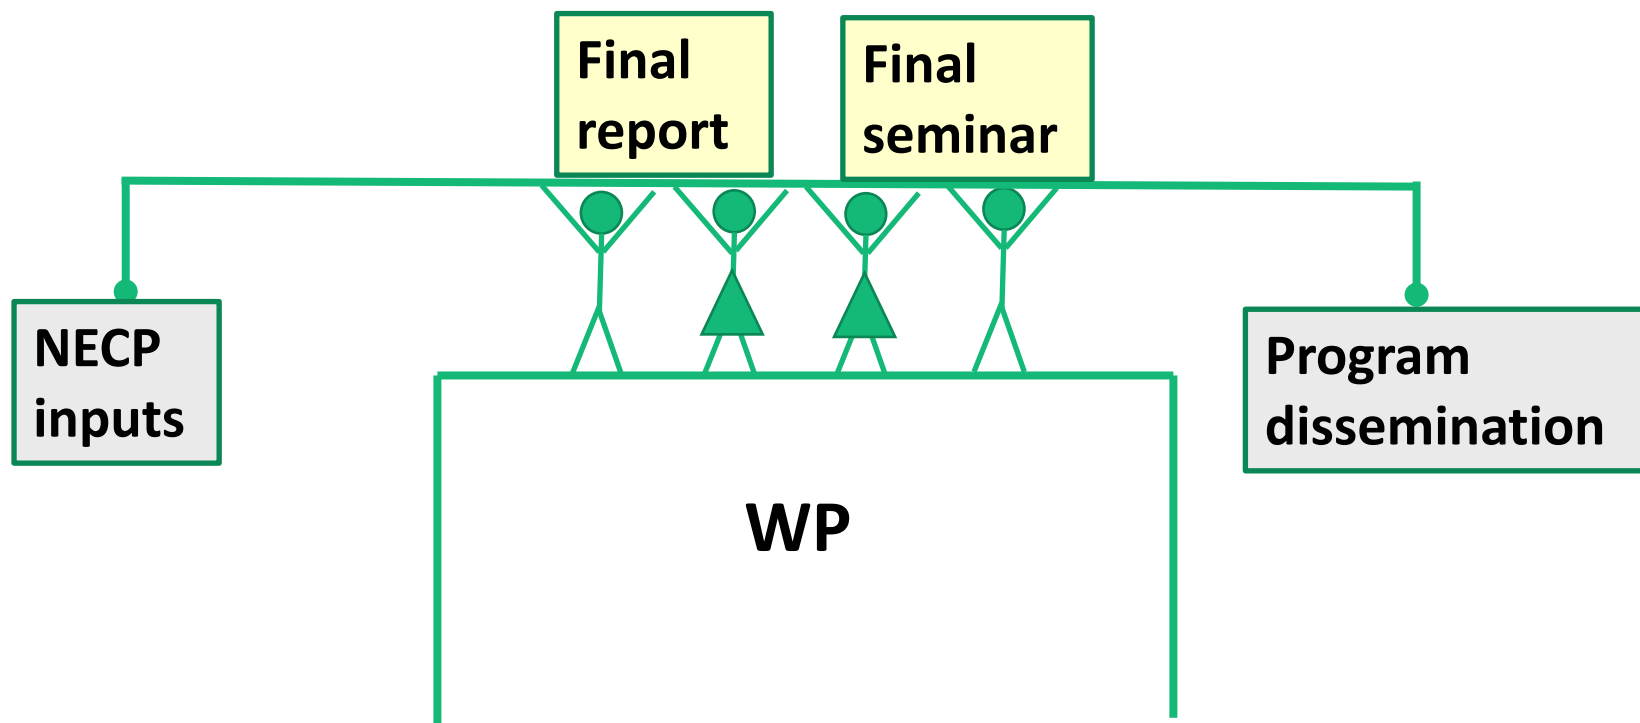

- Carry out mentioned improvements in
 - Data
 - Methods
 - Analysis

- Share results

SINTEF

Activity 4: Prepare deliverables and support program dissemination

❑ Questions to the proposal?

❑ Next: discussion, is the program plan sound and sufficiently clear?
