Making CCU and CCS happen!

**Nordic Energy Research
Carbon Capture Utilization and Storage workshop**

What is needed to enhance Nordic collaboration on CCUS and to address technical, financial, legal as well as societal barriers.

- Is CCS/CCUS a purely commercial venture or is it national infrastructure with a need for a TSO and regulation?
- Can we deliver volume increase and reach a business scale on both Hydrogen and CO2 in the short term?
- Perceived and real barriers to CCS and CCUS, wish list of actions

- HOW DO WE FIND COMMON NORDIC VALUE?

Breakout session I: CCUS Business and technical opportunities - what would be reasonable?

Facilitator: Preben Birr-Pedersen, BiRR

Breakout session II: CO2 capture and storage Standardization, regulation, challenges, and possibilities.

Facilitator: Ingvild Ombudstvedt, IOM Law
