WHY?

1

Curiosity is the key.

You can't have a proper plan if you don't know
what's out there.

2

Start treating unusual as usual.

Our responsibility is to normalize women in the energy sector. As long as the general attitude is that we are special, we remain outside.

3

**If someone thinks
you can do it, you
can do it.**

Let's not shy away from new challenges and
opportunities.

**But the best is:
We all
come in
different
shapes and
sizes**
