

Energy Conversion and Storage

– Perspective and Outlook

Claus Møller, CEO Siemens A/S

Copenhagen, 19. September 2019

The North Sea Hub – A huge potential for renewable energy

SIEMENS
Ingenuity for life

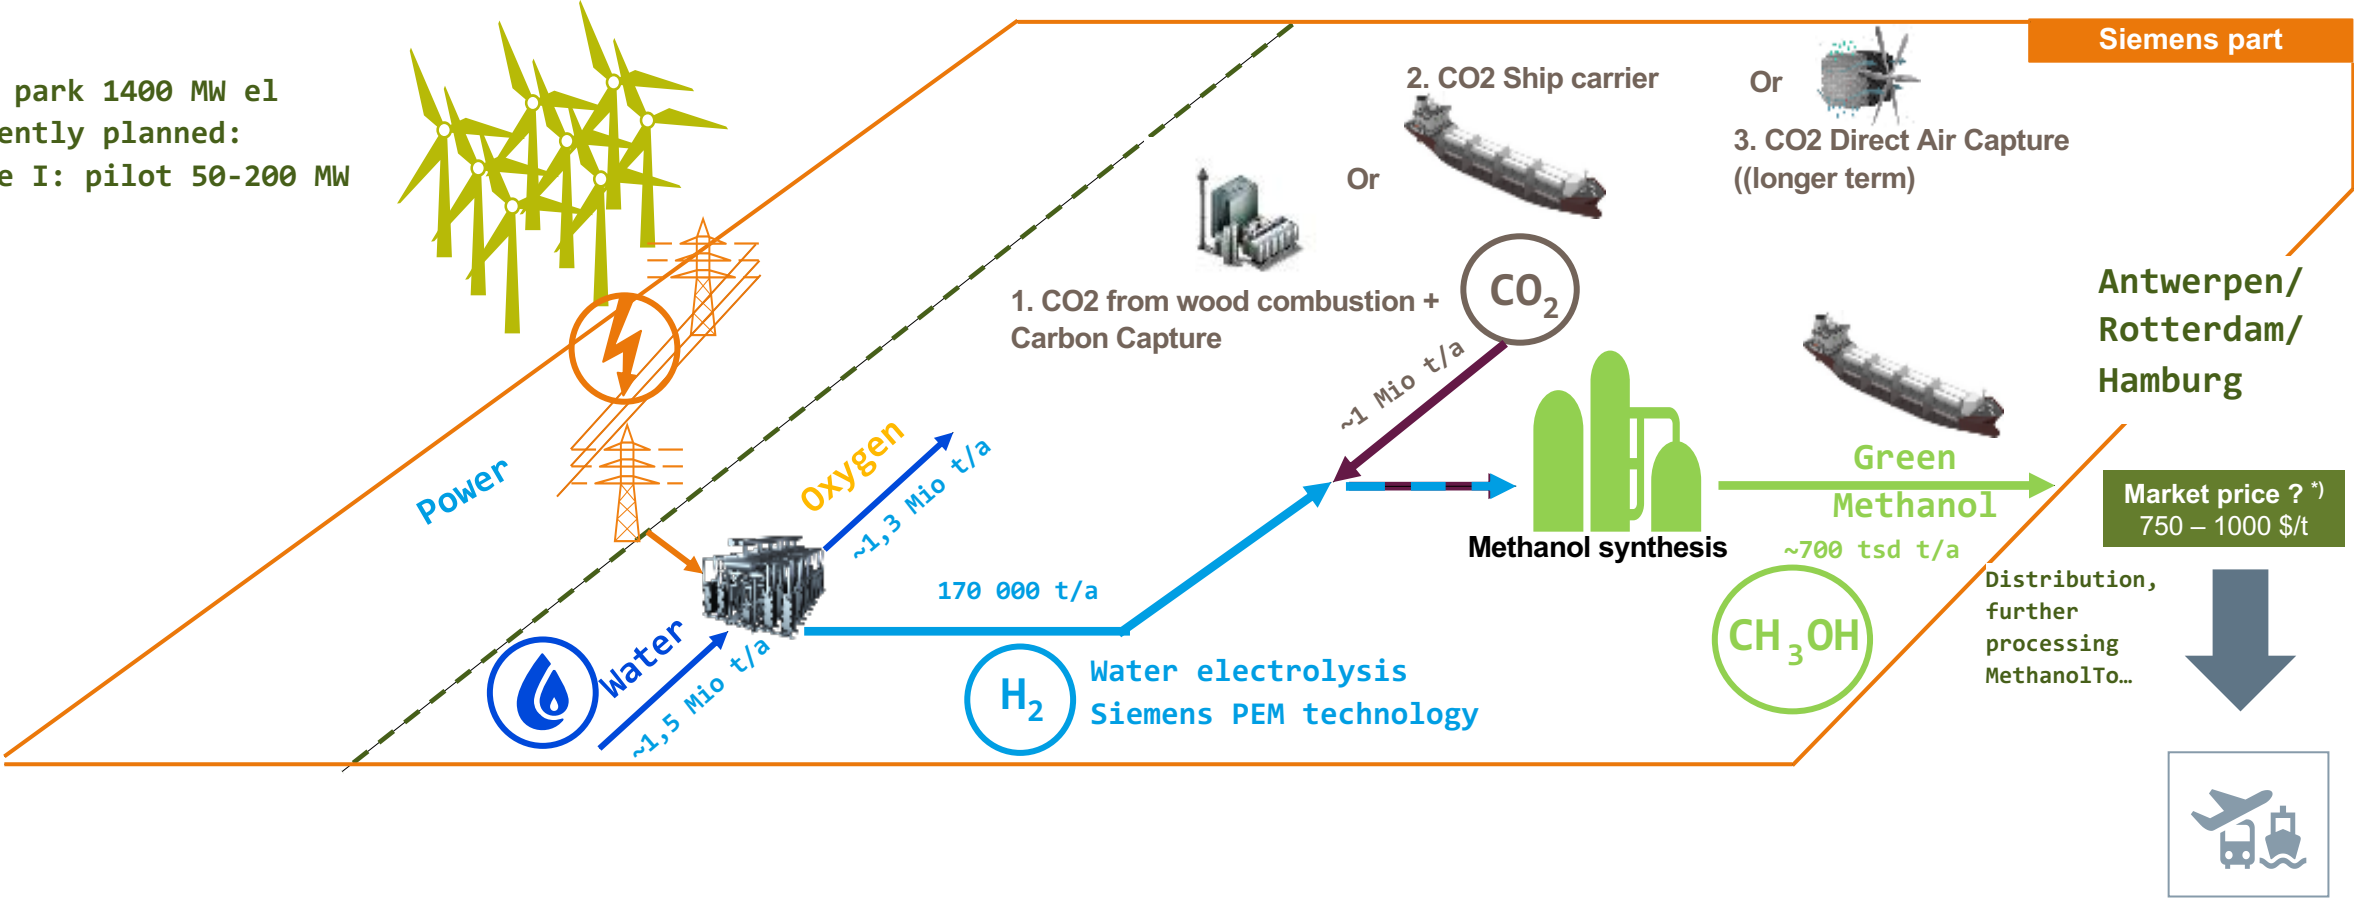

Becoming a region of green fuel production

Power-to-X

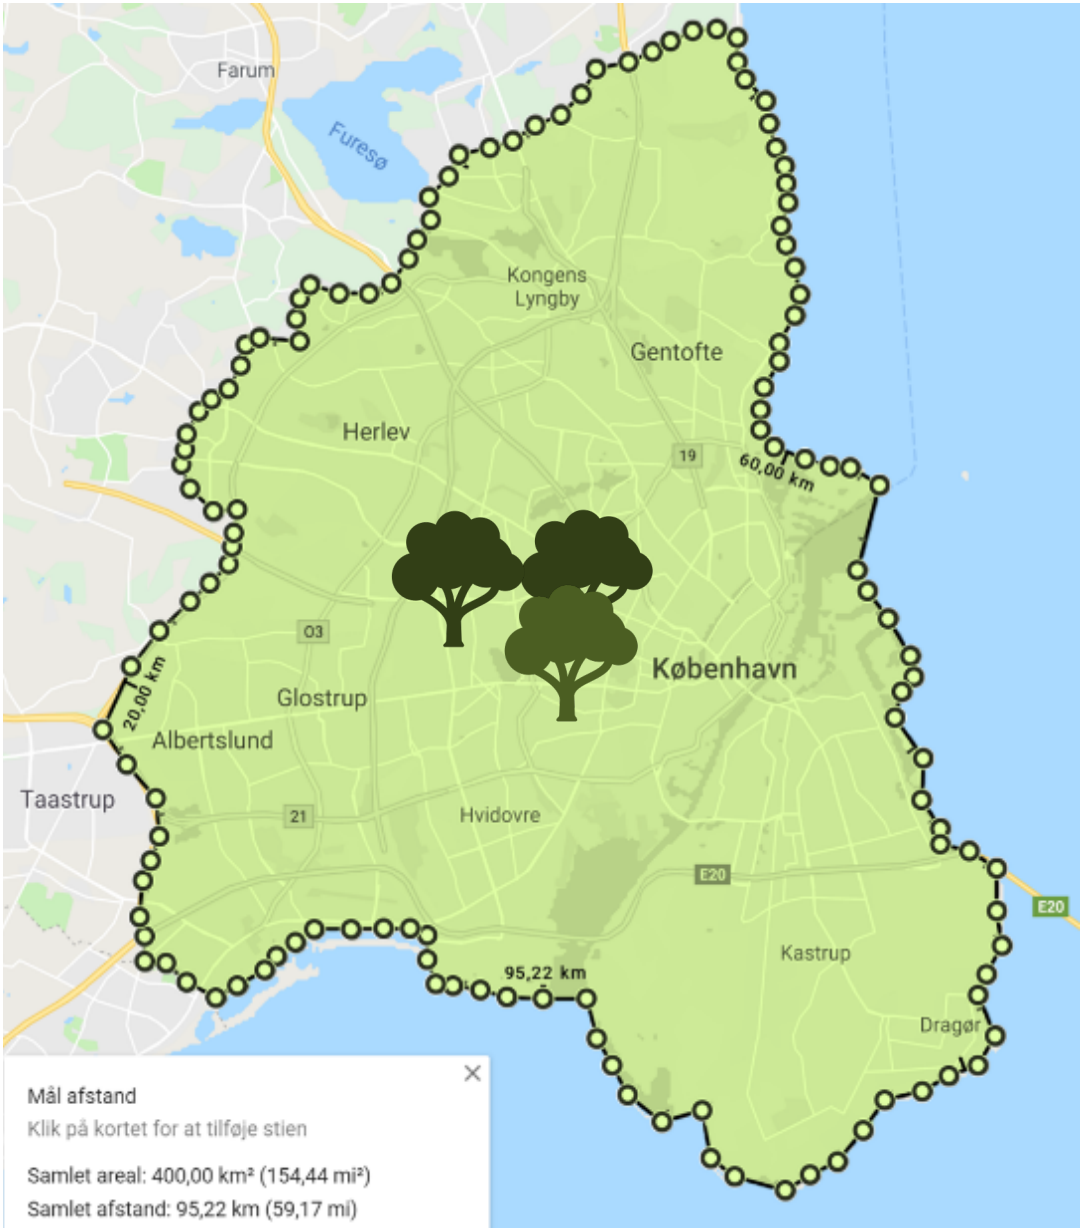

Wind park 1400 MW e1
Currently planned:
Phase I: pilot 50-200 MW

*) First price notation for green methanol at exchange Rotterdam 660 €/t (=760 US\$/t), potential for price increase up to 1000 US\$/t based on biofuel pricing for comparable CO₂ reduction

Carbon Capture from waste combustion

Greatly supported by the
Danish research environment

/nnovationsfonden
